IT Auditing/Analyst Professional

Highly skilled Network Engineer with over 5 years of experience in designing, implementing, and maintaining network systems. Proficient in configuring and troubleshooting network devices, ensuring optimal performance and security. Adept at collaborating with cross-functional teams to deliver robust networking solutions. Seeking to leverage expertise in a challenging network engineering role.

Areas of Expertise

TCP/IP	Cisco Routers	IDS & IPS
BGP	Cisco Switches	Wireshark
OSPF	Firewalls	Azure

Professional Experience

Mindtree Ltd

Network Engineer

2021 – Present

- Design and implement network infrastructure for enterprise clients, ensuring high availability and redundancy.
- Configure and manage Cisco routers, switches, and firewalls, optimizing network performance.
- Conduct network performance analysis and troubleshoot connectivity issues, reducing downtime by 30%.
- Implement network security measures including VPNs, firewalls, and intrusion detection systems.
- Collaborate with IT and support teams to provide technical support and resolve network-related issues.
- Maintain network documentation and diagrams, facilitating efficient network management and audits.
- Lead network upgrade projects, including the transition to IPv6, resulting in improved scalability and performance.
- **Key Achievements:**
- Successfully led the network redesign project for a major client, resulting in a 40% increase in network speed and reliability.
- Developed and implemented a network monitoring system that reduced incident response time by 50%.

Accenture

Network Engineer

2019 – 2021

- Assisted in the installation, configuration, and maintenance of network equipment including switches, routers, and wireless access points.

- Performed network troubleshooting to identify and resolve connectivity issues, ensuring minimal disruption to operations.
- Monitored network performance and implemented necessary optimizations to maintain optimal functionality.
- Supported senior network engineers in large-scale network projects and upgrades.
- Created and maintained accurate network documentation and diagrams.
- Provided technical support and training to end-users on network-related issues.
- **Key Achievements:**
 - Played a key role in the successful deployment of a new company-wide wireless network, enhancing mobile connectivity for over 250 employees.
 - Contributed to a 25% reduction in network-related support tickets by implementing proactive monitoring and maintenance strategies.

Education

Information Technology Associate of Applied Science

Prince George's Community College, Largo, In Progress

Diploma in General Sciences

Saint Albert's Comprehensive College, Bamenda-Cameroon

Licenses & Certifications

CompTIA, CompTIA Security+, COMP001021919385

Microsoft, Azure Fundamentals - I412-2934

Cisco, CCNA, CSC014030823

Languages

French and English
